

EVOLAS

LASER-Crafted Art

Where light ignites matter.

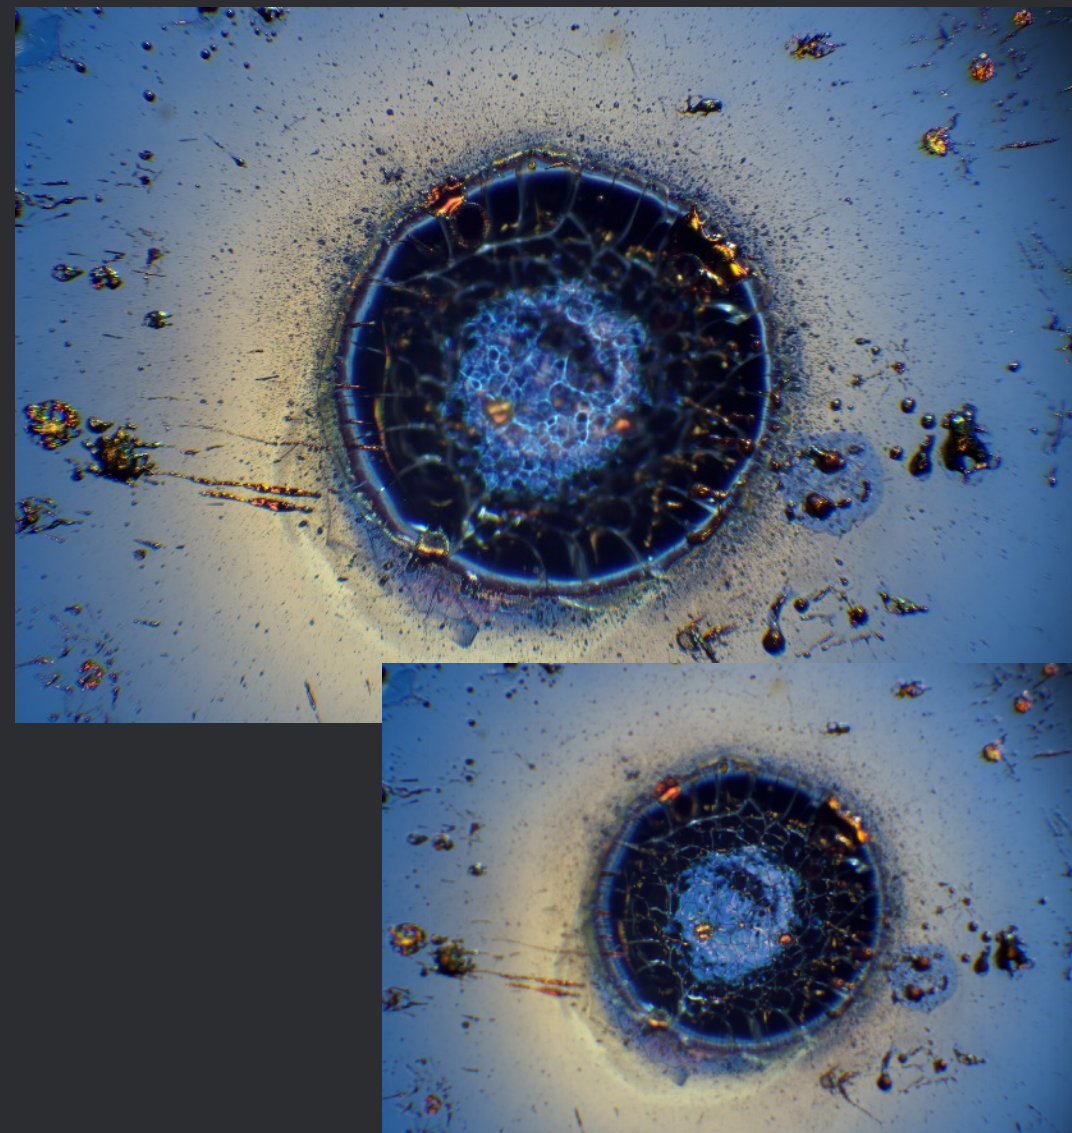

And matter becomes art.

Exclusive Motifs on EVOLAS GLOBE EG-00218-46008

About This Gallery

Main EVOLAS Motif:

ARTWORK NAME: "Fragile Vortex"
MOTIF IDs: EM-P-00093-46154
 EM-P-00094-46154
GLOBE ID: EG-00218-46008
EDITION: 5

This preview presents the additional motifs associated with the main artwork "Fragile Vortex" on EVOLAS GLOBE EG-00218-46008.

All motifs originate from distinct regions, structural conditions, and focal configurations within a single continuous microscopic metal landscape permanently preserved on this GLOBE.

The main artwork represents a carefully selected focal point within this landscape. The additional motifs extend this perceptual environment through further structural variations, material fields, and spatial viewpoints emerging from the same irreversible physical reality.

All motifs were identified, selected, and artistically articulated through varying microscopic magnifications, focal conditions, and optical configurations.

The resulting differences in scale, spatial depth, illumination behavior, and color appearance form an intentional part of the perceptual diversity contained within the same physical GLOBE.

Unlike previous EVOLAS motif constellations, the main artwork "Fragile Vortex" itself exists in two documented visual states derived from the same physical structure.

These differing appearances emerge exclusively through shifts in microscopic focal depth, revealing distinct spatial characteristics within an otherwise unchanged material configuration.

Differences between the motifs arise from variations in structure, density, dispersion, spatial orientation, and focal depth rather than from changes in process or technique.

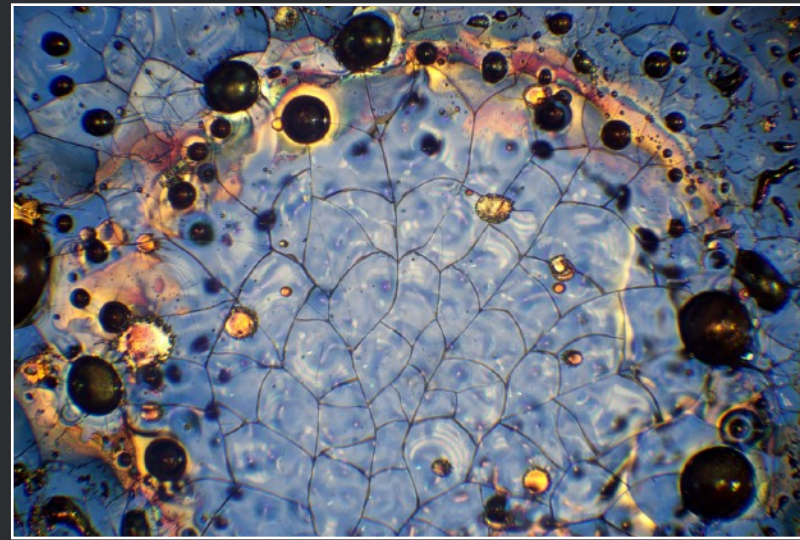

Access to the acquisition of any additional motif is exclusively reserved for collectors who have acquired the corresponding main artwork derived from the same GLOBE.

Each additional motif therefore constitutes an exclusive extension of that specific artwork and cannot be obtained outside this defined relationship.

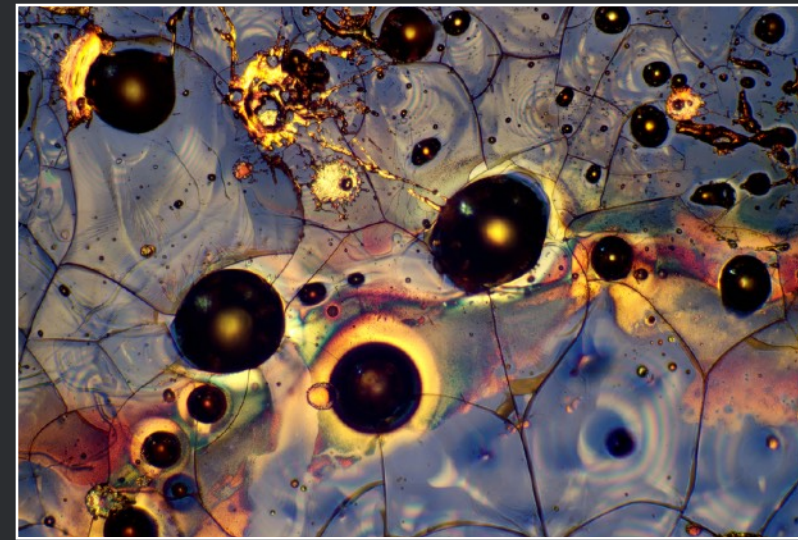

This preview gallery presents the complete set of additional motifs together with their individual EVOLAS codes, providing a structured overview of the visual possibilities contained within a single GLOBE.

EVOLAS

LASER-Crafted Art

Each motif presented in this gallery represents a distinct perspective derived from the same physical GLOBE — a permanent material record of a single, irreversible laser-driven process.

Together, the motifs form a coherent landscape of views and interpretations. None of them alters the underlying work; each reveals a different position within the same physical reality.

This Preview Gallery provides an overview of the visual possibilities contained within a single EVOLAS GLOBE and serves as a reference for further exploration. The gallery applies equally to all officially issued edition instances derived from the corresponding main artwork. Individual ownership and edition numbers are defined exclusively in the respective Certificates of Authenticity.
